

How Healthy Smiles Begin

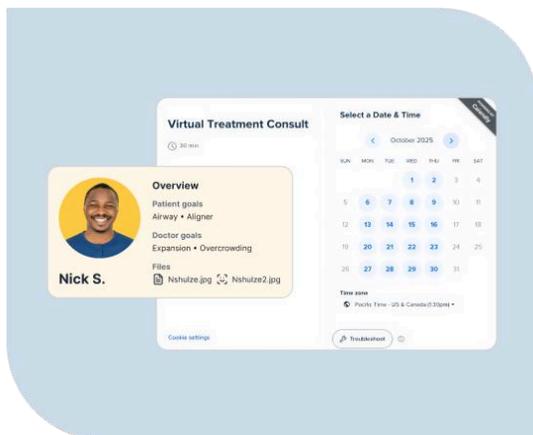

Dr. Greg Baker designs the plan, we deliver the care. Airway-focused treatment for kids and adults, made simple and effective.

STEP 1

First Visit at the Office

- Digital records and photos are taken
- Your goals are discussed
- Before you leave, you'll be scheduled for a remote consultation with an ODO Virtual Treatment Coordinator

STEP 2

Treatment Plan

- Dr. Baker reviews your records from both an orthodontic and airway perspective
- You will receive an email from our Treatment Coordinator about what's going on

You'll receive:

- Go/no-go treatment eligibility
- Estimated length of treatment
- Anticipated appointments
- Possible appliances (expanders and/or aligners for children, aligners for adults)

STEP 3

The Virtual Consultation

- Flexible payment options (**including financing up to 72 months and payments as low as \$90/month**)
- Your next in-office visit is scheduled
- Review Dental Monitoring technology to prepare you for your in-office start day

Take scans of your smile from anywhere

We receive feedback from your scans

Check how your smile is changing

STEP 4

Treatment Begins

- We deliver your in-office care
- ODO's Virtual Clinical Assistants (VCAs) track your progress remotely every week through Dental Monitoring
- If any issues arise, you'll have direct access to ODO's orthodontic team via your App
